What a miner would very properly term "surface indications" of what is beneath, are the Pimples, Sties, Bore Eyes, Bolls, and Cutaneous Eruptions with which people are annoved in spring and early summer. The effets mitter accumulated during the winter months, now makes its presence felt, through Nature sendesyors to expel it from the system. While it remains, it is a poison that festers in the blood and may develop into Scrofula. This condition causes derangement of the digestive and assimilatory organs, with a feeling of enervation, languor and weariness—often lightly spoken of as on y spring fever." These are evidence, that Nature is not able, unsided, to throw off the corrupt atoms which we ken the vitil forces. To regain health, Nature must be aided by a thorough blood purifying medicine, and nothing theels so effective as

VIOLENT storms of wind, rain and lightning occurred throughout Iov s, Michigan, northern Indiana and northern Illinois, on last Sunday night, and unseasonably cold weather prevailed throughout Minnesota and Dakota. Frosts are reported from various points in Manitoba.

An official census of the territory of Dakota, just completed, shows a population of 415,564 Whether this number will be considered suffi cient by the Democratic party to form a state in that far northern lat stude remains to be seen.

Under the new franchise act in England 2,800,000 voters will be added to the polling lists at the ap proaching election, and great anxiety is manifested as to the party which will secure the support of this vast army of new citizens

MULLEY, the Cincinnati officer who locked up 113 colored men the night before the election last fall and kept them in the lock up until too late to vote, was, it is claimed, indicted for has offense by a Democratic grand sid that the a point is his a more. It wight he added that he was jury It might be added that he was pardoned by a Democratic president, upon the recommendation of a Dom ocratic governor. It is best to tell the whole story connectedly

The Shoe and Leather Trade—A Suc cessful System Inaugurated in the Interior Department.

For First Class Matter Only--The High ways From the Interior to Be Cleared.

He Has Been There,

WASHINGTON, D. C., August 25. Lieutenant Dannenhower, of Arctic exploration fame, has prepared a paper to e read at the annual meeting of the Naval Institute next October on the subject of "Polar Explorations," in which e takes a firm stand against Arctic explorations In summing up his conclusion on the subject, he says

"After having having served with one Arctic expedition and having devoted seven years to the study of the subject, as well as the watchful observations of the numerous efforts and the comparatively insufficient results attending the sacrifice of human life and treas-ure, I unbesitatingly record myself as opposed to further explorations of the Central Polar Basin with our present resources The gradual extension of observatory stations in the interest of meteorology, magnetism and other scientific branches should be made, but the National support should not be given to another Polar expedition The Shoe and Leather Trade.

WASHINGTON, D C, August 25 -Some time since the State Department sent circulars to the various United States Consuls asking for information in regard to the shoe and leather trade in the various districts in which they sie located Responses to these circulars are now being received Consul Harper, of Munich, says of the trade in Germany "German manufacturers have, during the last decade, made rapid progress in this industry. There have been rounded large factories that produce district goods quite equal to those produced in other countries. No money has been spared to introduce the very best mabone of the most prominent Louses have been sent to America, England and France to study the trade and its bearings. The American method of manufacture has had the special atten-tion of the leading firms. The result is that many factories are completely furnished and conducted on American plans In fact, the German manufacturers are endeavoring to elevate their production to the highest degree of per-fection. The time is not far distant when German machine sewed ladles? goods will be found in the West End

shops of I ondon "

Consul Russell writes as follows from I iverpool "American leather is sent here with a quantity of waste attached, which Loglish tanners would lender into gine and not be at the trouble and expense of tanning. There is something in the American process which robs the pelt of a large portion of its gelatinous parts and makes the texture dry It is found necessary for buyers of Amorican hides, before they can be used, to rid them of much offal before they cut them up. This is waste. It would enhance the value of the sides if American tanners would cut these off and make glue pieces of them. There are no bona fide. American made boots sold here, although there are several so called American stores The goods sold in them are manufac tured, as the proprietor says, on the American principle. There are no import duties on leather, either raw or

nanufactured " A Successful System

WASHINGTON, D. C., August 25 -Tues days and Pridays are Cabinet days in the Interior Department. The Cablnet room 20 with violence with it reached the pro is the office of Assistant Attorney-General Montgomery, who presides over the deliberations, and the officers who assemble ire the law clerks of the department Under previous administrations the decisions on land questions promulgated under the Secretary's signature were prepared by a clerk, handed to the chief clerk of the Assistant Attorney-Gen-eral's office, and then through the latter official the opinions reached the Secretary At present a new system is in operation. On the days named the law clerks assemble in Judge Montgomery's room, bringing with them the decisions they have prepared. One clerk is particularly expert in homestead cases, another in pre-emptions and an-other in land grants Lach reads aloud the opinions he has prepared on the questions submitted to him, and then they are laid before the "Cabinet" for riticism and discussion The plan has been found to work well It keeps the clerks from falling into grooves, and an opinion which is to be submitted by one clerk to all his fellow clerks is sure to be ionestly and carefully prepared

For First-Class Matter Only WASHINGTON, D. C., August 25 -A naulry has been made at the Post office Department as to whether the special stamp system, which was to go into effect October 1st, will apply to mer; chandise as well as to letters and whether packages baving these stamps will be delivered. Department officials hold that the intent of the law is to provide for the prompt delivery of first-class matter only, but that merchandise not to exceed four pounds may be put up as first class matter, and it would undoubt edty be specially delivered, but it would probably cost the sender more to send if short Third and fourth class matter an he sent long distinces more cheaply we mail than by express because the mail anca are the same all over the United regu-

C., August 25 -- Conul Jewis at Sierra Leone has reported o the State Department that steps are at ast being taken to put an end to the wars of plunder and religious fanaticism which constantly close the highways

Joint Conference Committee Meeting. SARATOGA, N Y, August 25 -The meeting of the joint conference commit tee of the National League and the American Association of Base Ball clubs was held at the Grand Union yesterday. The League was represented by A H Soden, of Boston, A. G. Spaulding, of Chicago, and R. B. Day, of New York, and Messrs Chris Von der Ahe, of St. Louis, C. H. Byrne, of Brooklyn, and Lew Simmons, Philadelphia, represented the American Association After a thorough discus-sion of the interests of the two associations a plan of action was adopted governing

the future course of all League and As-sociation clubs, declining to pay the players advance money on future con-tracts. It was further determined to have the clubs of the two associations have the clubs of the two associations pledge themselves not to negotiate or contract with any player now under contract with any League or Association club prior to the 20th day of October next. It was also agreed that after the close of the championship season the clubs of the two associations would interchange games.
Other matters were discussed and

assed upon by the Joint Committee, and will be reported to the two Associa tions for approval later on in the sea

on The conference was harmonious, and has cemented effectually the relation ship at present existing between the two associations The conference lasted for five hours, and none outside of the Committee and Secretaries were allowed to be present Whatever other matters were acted upon can no be le**arned.**

Wasted the Appropriation New York, August 25 .-- A Washing ton special to the bun says: "The Treas ury Commission which has been investi gating the office of the Supervising irchitect has ordered the suspension of il payments in the cases of the nev Post office building of Kansus City . had state of things has been developed there. At the last session of Congress \$20,000 were appropriated for the com-pletion of the approaches to the building, or a clock and for sewer connections On the strength of this appropriation the citizens subscribed \$1,500 for a flue lock bell, which was to enable residents of the city and vicinity within a radius of six miles to keep the time and set their watches But nonths passed by and there was no sign of the clock. This led to inquiry and of the clock. This led to inquiry and the inquiry led to disagreeable revelations. It now appears that supervising Architect Bell has spent the whole \$20,000, and that only \$1,400 of that sum has gone for any of the objects embraced in the appropriation. This sum was paid for an iron fence. The sum of \$18,000 has been spent for a heavy markle watersecting within the heavy marble wainscoting within the Post office, for which there is no war rant in the appropriation. The result is that the accounts are suspended and Mr Bell finds himself charged with an illegal and improper expenditure o public moneys "

Innocent Ben. Boston, Mass, August 25 - General Butler vesterday indignantly depled the charge made in a Washington dispatch to the New York World that there is lourishing in that city a market-house dug with General Butler, ex Secretary Chandler and others as members (en eral Butler pronounces the article a tissue of lies lie says that he had nothing to do with the building of the Washington market, never owned a share of its stock or a bond, till he took them in plyment of a debt, that furthermore, the lane

was reserved by Congress for a market nd has been occupied by one ever sinc Washington's time, and that the semos. of the market would increase the value of his Capital City property Kidnaped LARREDO, TEX. August 25 -Reliable

information is received here that Aufde moste the absconding sub-treasury cleri of New Orleans, was not legally taken from Mexico, but came back to the United States thinking he had been ex pelled from Mexico by the hudge whe tiled him at Monterey whereas the judge had released him Audde monte's ignorance of the Mexico hauguage made the understanding possi ble, and the officers seeing their advan-tage, accompanied their man to this side of the river and then arrested him There are good grounds for the charge of kidnaping, and there is a probability

that an effort will be made to have Aul demorte returned to Mexico Disastrous Storm at Kalamazoo KALAMAZOO, MICH, August 25 --heavy rain set in Monday night, about eight o'clock, continuing until yesterday morning, doing great damage. Mr. H. will take his departure to-night. During the past month, with his characteristic thoroughness in carrying out everything he undertakes, Mr. Hagerman has been engaged in collecting the finest lot of Norman and Clydeedale stallions and trotting stallions that can be found in Illinois; also brood mares of high grade, and he wisely selected all from the celebrated Elm Grove stock farm of the Brenneman Brothers, and such excellent judges of horse flesh as Supervisor A. T. Hill, B. O. McReynolde, F. W. Miller, Will Soudder, J. F Reid, and many others who viewed the sollection to-day units in the verdict that the collection of 15 stallions and mares is by big odds the finest car-load of horses ever sent out of Macon county. Two Premiume.

Mr. John F. Gepford, of Illini township, this county, attended the fair last week at Monticello and esptured two handsome premiums. "Lemont" was awarded the first premium for the best stallion of any age, and "Sam S," sired by "Lemont," got the blue ribbon as the best two-year old colt in the ring.

"The Tremont."

Horace and Albert Morgan may well sing the praises of "The Tremont," the leading hotel in Chicago, of which that genial gentleman, H. W. Mott, is propritor. It is centrally located, is six stortes high, is built of Amherst sandstone, and will accommodate 500 guests. Many Deentur people stop at the "Tremont" besause it is home-like and cosy. Postponed.

Ball Games The managers announce the following rames at the Park:

Wednesday-Indianapolis Blues ve Decatur Reds. An effort will be made to have the Blues remain and play on Friday and Saturday-Springfield Reds

vs. Decatur Reds. These games will deoide whether or not Decatus can be st Springfield playing ball. Monday, Aug. 31st, comes the great

game with the Detroit League club. If it should prove a fine day the Park will

not hold the crowd. The Enterprise Nine of St. Louis, that defeated the Blacklisted Nine on Sunday, will play here on Fridey and Saturday, Sept. 4th and 5th.

On Monday, Sept. 7th, the Streator club will pay Decatur another visit and try to wax the Reds.

Harry Decker was at Hannibal, Mo on Sunday, where he played ball with the Alton Nine against the Hannibal Club. Score 9 to 4 in favor of Alton. Decker got home last night.

Cahill, the new second baseman for the Reds, arrived from St. Louis this noon.

A Large Business. Few people, unless their attention has been specially called to the matter, have any idea of the magnitude of the flour, feed and fuel business carried on by V. H. Parke, at his establishment on North Main street. Seven delivery teams and twenty-one men are required to attend to the wants of quetomers, and even with this large force it is difficult to fill orders as fast as they come in. Mr. Parke sells both hard and soft coal, good dry wood, the best Minnesota flour, mill feed of all kinds, corn, oats, baled hay, and all other varieties of stock feed, and as he is a practical judge of all these things customers need not besitate in giving him their orders. Mr. Parke's enterprise will prove to be a great convenience to the people of Decatur, who have long felt the want of a place where they could be

Shot His Brother. While shooting at a target last evening at 682 East Wood street, the twin sons of A. C. Moore, aged 12 years, came to grief. Little Phiness was the manager of the target while Tim fired the gun. Both boys were badly frightened, Tim being nearly frightened out of a year's growth. Dr. Moore was summoned and dressed the wound, which is not at all dangerous. Good Records.

Brenneman Bros. are feeling good today over the records made by two of their young trotting horses in Indians. The Blue Bull stallion, "Steward Mack," worked the past season at the Driving Park by James Hazleton, the trainer, made a record at Middletown in his first race of 2.27, trotting the other two heats in 28 and 29. "Hero," by Stoner Boy, dam by Blue Bull, a fine three-year-old, also trotted his first race and made a rec-
